## Coeur d'Alene is having a Science Night in Partnership with Sylvan Learning Center of Culver City!

Come enjoy a night filled with:

### Robotics with Legos

Students will use LEGO to build and program a simple robot. Students will get a chance to experience what goes into the creation of a robot as well as learn new STEM vocabulary.

### Engineering with Legos

Kids will experiment and learn engineering and architectural concepts in a fun and interactive way. Students will build simple machines and design bridges using LEGO® and K'NEX®.

### Math Fun

This fun math station will dive deeper into common-core math using fun and interactive game. This station is perfect to encourage a newfound love for math!

### Game Design

Enjoy this fun introduction to coding/game design! Kids will get a short coding lesson while completing a simple block form programming activity on an iPad; putting their new skills to the test!
